Test Report Template

Student	三留慎太郎	Date	20250616
Program	4	Program #	
Instructor	日下部 茂	Language	Java

Test Name/Number	テスト 1
Test Objective	N 個のでーたから自然対数を取り相対規模範囲を計算し、それぞれの中点を計算できることを確認する
Test Description	対数正規分布の標準偏差を用いて、VS,S,M,L,VL の相対規模範囲を計算し、 それぞれの中点を出力できることを確認する。 用いるデータは、部品名、部品規模、その部品のアイテム数とする 部品とアイテムが同義の場合はアイテム数は 1 とする。
Test Conditions	data_program4_1 で以下を与える each_char,18,3 string_read,18,3 single_character,25,3 each_line,31,3 single_char,37,3 string_builder,82,5 string_manager,82,4 list_clump,87,4 list_clip,89,4 string_decrementer,230,10 Char,85,3 Character,87,3 Converter,558,10 Java Program4 data_program4_1 で実行する
Expected Results	VS = 4.3953 S = 8.5081 M = 16.4696 L = 31.8811 VL = 61.7137
Actual Results	VS = 4.3953 S = 8.5081 M = 16.4696 L = 31.8811 VL = 61.7137

Test Name/Number	テスト 2
Test Objective	N 個のでーたから自然対数を取り相対規模範囲を計算し、それぞれの中点を計算できることを確認する
Test Description	対数正規分布の標準偏差を用いて、VS,S,M,L,VL の相対規模範囲を計算し、 それぞれの中点を出力できることを確認する。 用いるデータは、部品名、部品規模、その部品のアイテム数とする 部品とアイテムが同義の場合はアイテム数は 1 とする。
Test Conditions	Java Program4 data_program4_2 で以下を与える
	Preface,7,1 Chapter 1,12,1 Chapter 2,10,1 Chapter 3,12,1 Chapter 4,10,1 Chapter 5,12,1 Chapter 6,12,1 Chapter 7,12,1 Chapter 8,12,1 Chapter 9,8,1 Appendix A,8,1 Appendix B,8,1 Appendix C,20,1 Appendix D,14,1 Appendix E,18,1 Appendix F,12,1 Java Program4 data_program4_2 で実行する
Expected Results	VS = 6.3375 S = 8.4393 M = 11.2381 L = 14.965 VL = 19.928
Actual Results	VS = 6.3375 S = 8.4393 M = 11.2381 L = 14.965 VL = 19.928

Test Report Template Instructions

Purpose	− To maintain a record of the tests run and the results obtained − To be sufficiently complete so that you can later re-run the same tests and get the same results − To facilitate regression testing of modified or reused programs
General	− Expand this table or use multiple copies as needed. − Report all the tests that were successfully run. − Be as brief and concise as possible.
Header	− Enter your name and the date. − Enter the program name and number. − Enter the instructor's name and the programming language you are using.
Test Name/Number	Uniquely identify each test for each program. − the same tests with different data − the same data with different tests
Test Objective	Briefly describe the objective of the test.
Test Description	Describe each test's data and procedures in sufficient detail to facilitate its later use as a regression test.
Test Conditions	− List any special configuration, timing, fix, or other conditions of the test. − When multiple tests are run with different parameters or under varying conditions, separately list each.
Expected Results	List the results that the test should produce if it runs properly.
Actual Results	List the results that were actually produced.
